

In December 1939, Fred Pabst, of the Pabst Brewing family, while looking for places to promote the sale of his tow rope product, cleared and opened Pine Mountain.

Mr. Pabst, offered train trips from Chicago and Milwaukee to Pine Mountain on the weekends making it one of the premier hills of the late '30s and early '40s. After a brief closure in 1944-1945 due to gas rationing during the war, it was purchased by two members of the 10th Mountain Division, Laverne Trepp and Irvine Johnson. Under their management, a warming hut was added, built from crates used to ship WWII gliders to the nearby Ford Plant. The roof was made from the remaining glider wing spars and are a part of and can still be seen in our Sitzmark Bar.

The innovation of the Trepp Family led Pine Mountain to become the first in the region with 100% snow making, grooming, aerial lifts and was the only ski-in/ski-out resort in the UP. This distinction remains to this day. Your family can enjoy skiing, swimming, fine dining and lodging without ever leaving the resort.

In 2019, Pine Mountain received extensive upgrades to the hotel and resort, and continues to provide one of the best ski experiences in the Midwest.

THE BEST SNOW

Expert snow-making and grooming is what sets us apart from other Midwest ski resorts. We are consistently one of the first ski resorts to open and last to close. Pine Mountain is still known today as the best groomed and maintained resort in the UP.
